

PANDA POOL

PORTABLE
POOL
LIFT

PANDA POOL is at the cutting edge of technology thanks to its innovative features. It is both a motorised and portable lift, equipped with a drawbar with automatic traction to reduce any operator effort. PANDA POOL has a load capacity of 150 kg and 8 safety levels, making it not only the top of the range, but the universal reference in pool lifts: the best synthesis of quality, innovation, reliability and technological development.

Patent MN2013U1
Regulation EU 2017/745 Medical Devices – class 1 – DM 2563144/R
Directive 2006/42/EC – Machinery Directive
Directive 2004/108/EC – EMC Electromagnetic Compatibility
European registered design No.0021782020001

Maximum capacity: 150 kg
Maximum travel: 1390 mm
Depth of seat inside the water: 780 mm
Time of lowering - lifting with weight into water: 20 sec
Weight of the lift: 260 kg
Battery: 24 V

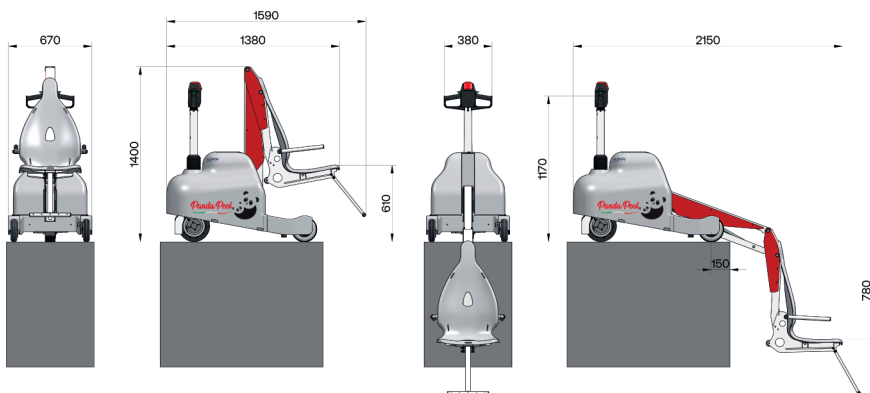

Handset for lifting and lowering
4-point safety belt
5-point safety belt
Protective cover
Custom-made ramp

TECHNICAL FEATURES

- 2 speeds motorised movements
- Control bar for forward motion and seat movement
- Starter key
- Battery charge level indicator
- Anti-crushing system for backward movement
- Automatic braking system integrated in the motorised wheel
- Electrohydraulic box
- Emergency manual pump for use in case of power failure
- Front rubber stoppers for forward safety lock

- Infrared front hole sensor for forward safety stop
- Retractable leg support
- Adjustable armrests
- Internal battery charger with LED indicator
- Average autonomy: 50 working cycles
- 2-point safety belt
- Stainless steel frame for in-water parts
- Galvanization and powder coating
